Experience

YOKOGAWA INDIA LIMITED

Graduate Engineer Trainee, Process Safety & Automation Engineering Bengaluru

- Enabled parallel delivery across 2 client projects by orchestrating requirements into structured, cross-functional delivery roadmaps.
- Cut project handover cycle time by **20%** by driving operating cadence across engineering, procurement, and QA.
- Accelerated leadership decision-making by owning executive reporting and presenting decision-ready dashboards weekly.
- Delivered zero-defect system commissioning across two international refinery deployments through end-to-end technical orchestration.

Mar'25-May'26
Bangaluru

YOKOGAWA INDIA LIMITED

Engineering Intern, Process Safety & Automation Bengaluru

- Achieved first-pass FAT approval with **zero rework** by translating client requirements into deployable automation logic via PROSAFE and CENTUM VP configuration.
- Cut post-deployment change requests by **20%** by capturing customer pain points from 10+ discovery calls and directly informing configuration decisions for 100+ graphics.

Jun'23-Jul'23
Bangaluru

BHARAT ELECTRONICS LIMITED

Summer Intern, Radar & Communication Systems Bengaluru

- Conducted process analysis of single-line electrical workflows, gaining exposure to grid distribution QA standards

Projects

MASTERS' UNION — Drop shipping Challenge, Co-founder and Team Lead

- Led **vendor coordination** and pricing negotiation with 10+ suppliers, building product catalogue for storefront launch.
- Drove **end-to-end ownership** of storefront UX, listings and payment integration, ensuring successful **launch execution**.
- Optimized Meta Ads creatives and targeting, driving **conversion uplift** and traffic growth.

Jul'26
Gurugram

MASTERS' UNION — Founded a D2C Brand

- Achieved **scale-up** of a personalized D2C coffee venture from 0 to 50 cups/day, enhancing **customer experience** through tailored offerings

Jan'25-May'25
Bangaluru

WEARABLE BIO-TRACKER FOR ATHLETES — Team Lead

- Held **initiative ownership** leading a 4-member team to build a wearable device tracking heart rate, SpO2 and fatigue

Aug'24-Dec'24
Bangaluru

THERAPEUTIC EXERCISE EXOSKELETON — Team Lead

- Directed 5-member team designing exoskeleton for post-stroke gait rehabilitation.
- Translated physiotherapist interviews into clinical specs and delivery constraints.

Feb'24
Bangaluru

TESLA TURBINE PROTOTYPE — Individual Contributor

- Built working Tesla turbine prototype, validating fluid dynamics performance benchmarks.

Achievements

- Converted YOKOGAWA GET offer through six-month evaluation and consistent execution rigor.
- Selected for MASTERS' UNION PGP-TBM YLC 2-Year Cohort C7 among 15000+ of applicants.

Volunteering & Leadership

REVA UNIVERSITY — Class Representative and Department Club Organizer

- Orchestrated events and resolved escalations as class representative and organizer.

2023-2025
Bangaluru

REVA MODEL UNITED NATIONS — Delegate

- Debated policy issues across two committee sessions as Model UN delegate.

2024
Bangaluru

Certifications

- PROSAFE Safety System Configuration (Yokogawa)
- CENTUM VP DCS Engineering (Yokogawa)
- Field Instruments, Fieldbus and Plant Resource Manager (Yokogawa)
- C++ Programming Fundamentals (Udemy, Mar'23)

Social Impact

- coordinated a Rotaract volunteer drive to clean Bannerghatta National Park, removing plastic litter and revitalizing perimeter walls through community-led painting initiatives
